Dear Resident

Northern Bore Field Pipeline – Construction Activities

Leed Engineering and Construction (Leed) have been engaged by Dubbo Regional Council to complete the construction of the Northern Bore Field Pipeline, located in the vicinities of Bunglegumbie, Nulla and Troy Bridge roads, Dubbo.

Preliminary work activities, including surveying and service locating commenced last week in preparation of pipe laying works. Works within the vicinity of your property will be undertaken within the next two months. Leed will contact you prior to pipelaying activities in the vicinity of your property to ensure that impacts are minimised.

Pipelaying activities include:

- Stripping topsoil
- Trenching
- Laying pipe
- Backfilling
- Reinstatement to previous conditions
- Pipeline testing

Please direct any questions or concerns regarding construction activities to the contact details provided at the bottom of this letter.

For further information regarding the Northern Bore Field Pipeline Project, please scan the QR code provided where you will be directed to the Dubbo Regional Council 'Your Say' website. Council will update the project page periodically as construction of the pipeline progresses. Questions concerning the project can be lodged directly with Council via the 'Ask a Question' button.

Leed thank you in advance for your patience and understanding during these works.

Yours sincerely

Tasman Scoles
Project Manager
