

LEASH FREE AREA | REGAND PARK SOUTH PRECINCT

February 2024

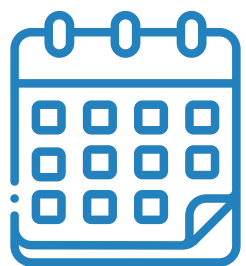

Survey results and findings

The Lease Free Area survey was designed to gain feedback from the community on the proposed scope of works for the leash free area as detailed in the Regand Park South Precinct element of the adopted Macquarie River Master Plan North and South Precincts.

Our engagement intent was to **CONSULT** with the community to obtain feedback and ideas on how the project should progress, to further assist decision-making. The survey was designed to gain qualitative data towards satisfaction with the concept and design, along with qualitative data to understand the community's overall sentiment.

A summary of the engagement activities and community participation are highlighted below.

How we reached you

22 December 2023 - 12 February 2024

- 52 Days Survey live to public

252 Visits to YourSay page

- 19 feedback contribution
- 6 page followers

Digital engagement

- 8,245 social media impressions (the number of times a post appears)
- 389 social media engagements (the number of times a post was interacted with - which can be likes, shares, comments etc)

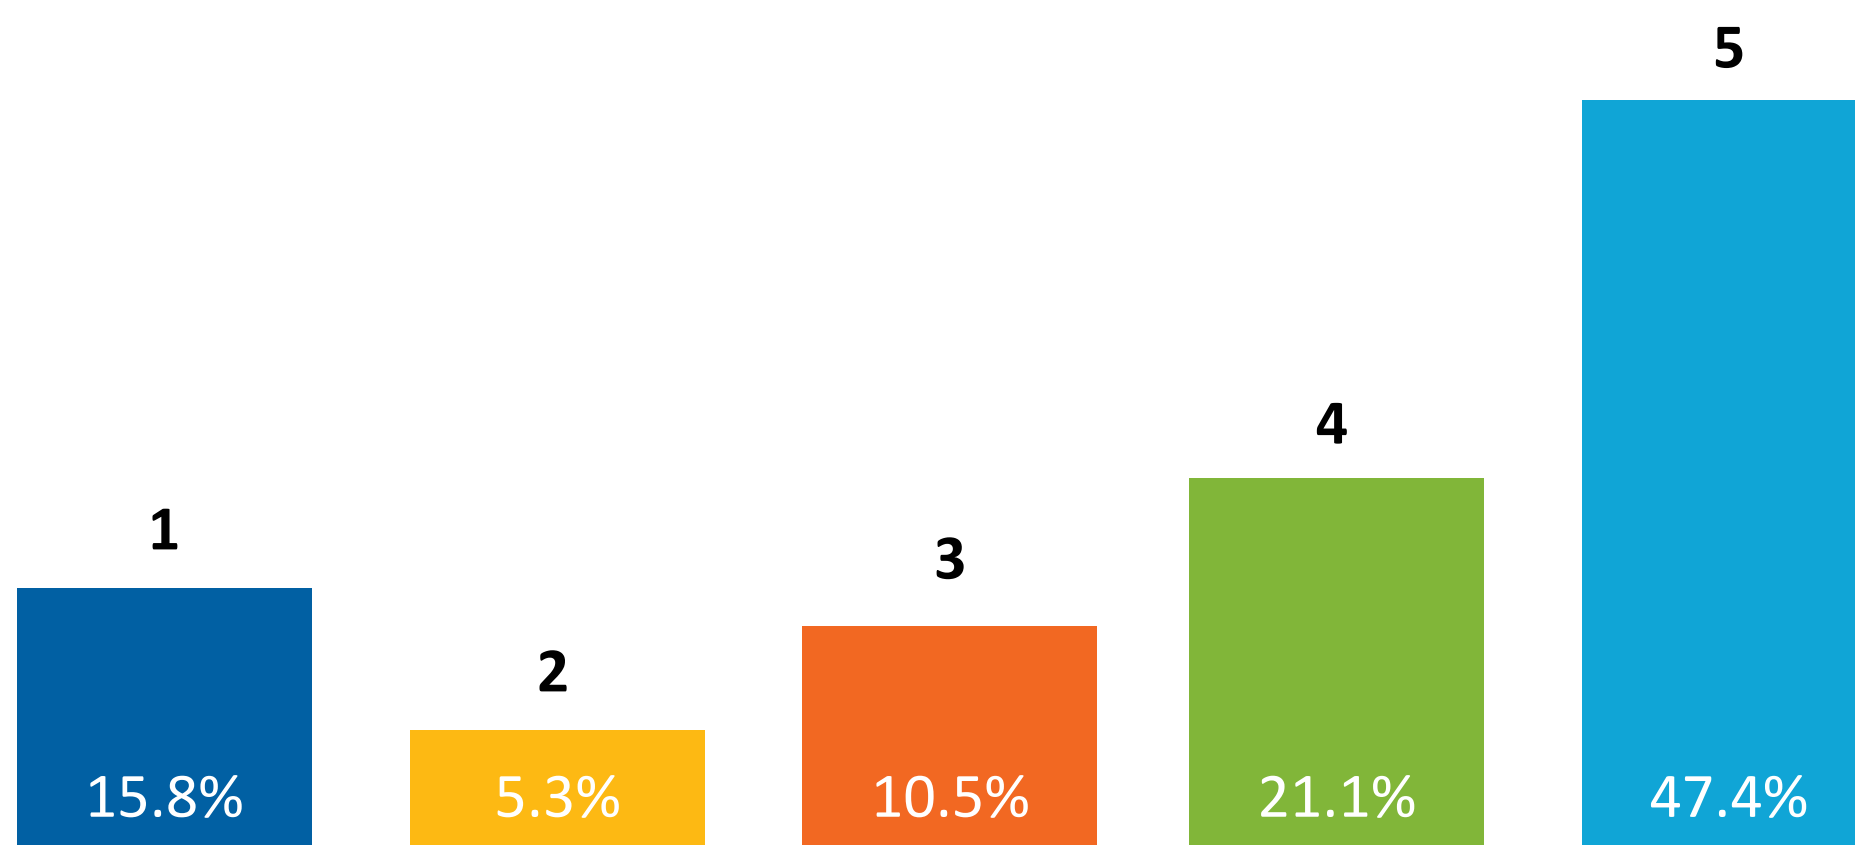

Email campaigns

- 1 YourSay campaigns
- 90 recipients
- 1 Direct email to Veterinary practices
- 1 Stakeholder meeting discussing proposed ideas for the leash free area

What we heard

of 19 contributions;

When we asked "Are you satisfied with the full design and concept of the leash free area?"

47.4% of the participants rated a 5 out of 5. Overall, the satisfaction rating averaged 3.79 out of 5.

When we asked “Do you have any suggestions for inclusions or alterations to the design when the next round of funding is identified or is there any other feedback you wish to provide?”

Provided positive feedback towards the concept and design of the leash free area

Sentiment

19 open ended contributions

The majority of contributors agreed that the design of the leash free area was positive for community and the area and provided constructive suggestions for consideration. A number of community members were supportive of the location as well as the proximity of the area to the river and walking tracks. A small number of contributors were unhappy with the concept and believed it would be negative for the area.

Outcomes and next steps

Results of the survey have been provided to the Manager Recreation and Open Space to guide future delivery of the full concept and design.

For members of the community who are following this project an email will be sent to advise of the outcome to close the loop on this engagement activity.

We thank you for your contribution.
